

WHITEPAPER

ARES3

"EARN, VIEW, AND MAKE."

# INTRODUCTION

## ARES3

REVOLUTIONIZING GAMING  
INDUSTRY

**Ares3 is a powerful and comprehensive gaming platform that offers users a unique and rewarding gaming experience. By leveraging the power of blockchain technology and fostering a community-driven approach, Ares3 aims to be a driving force in the development of the blockchain gaming industry and a leader in the space.**

Ares3 is a comprehensive gaming platform that is built on the principles of blockchain technology. The platform offers a wide range of gaming experiences, including online games, NFT games, and metaverse games, which are accessible through a seamless ecosystem that connects users from all over the world. ARES aims to provide users with a fair and transparent gaming experience by leveraging the power of blockchain technology, which allows for the storage of all game records, rules, and results in a secure and tamper-proof way.

The platform's name, Ares, is derived from the Greek god of war, and the platform embodies the same qualities of strength, power, and competitiveness that are associated with the god. ARES offers users the opportunity to compete head-to-head with other players in PvP games, tournaments, and direct matches, as well as to watch live streaming games and participate in hosting AMAs. Additionally, users can organize their own tournaments and even create their own games on the platform.

# VISION

Ares3 envisions becoming a leading platform in the blockchain gaming industry, providing users with a comprehensive set of tools and features for earning, viewing, and making games. The platform aims to create a secure and transparent ecosystem where players, developers, and investors can interact and benefit from each other. Ares3 aims to be a community-driven platform that fosters innovation, creativity, and collaboration while providing users with a unique and rewarding gaming experience. Overall, Ares3 aims to be a driving force for the development of the blockchain gaming industry and a leader in the space.

# MISSION

**The mission of Ares3 is to create a platform that connects users around the world and provides a seamless ecosystem for online gaming, regardless of the game or device used.**

**01**

The platform aims to leverage blockchain technology to store all game records, rules, and results, ensuring that players' skills are preserved and the gaming experience is fair and transparent.

**02**

Ares3 aims to make online gaming a part of users' lifestyles and provide them with an enjoyable and exciting gaming experience.

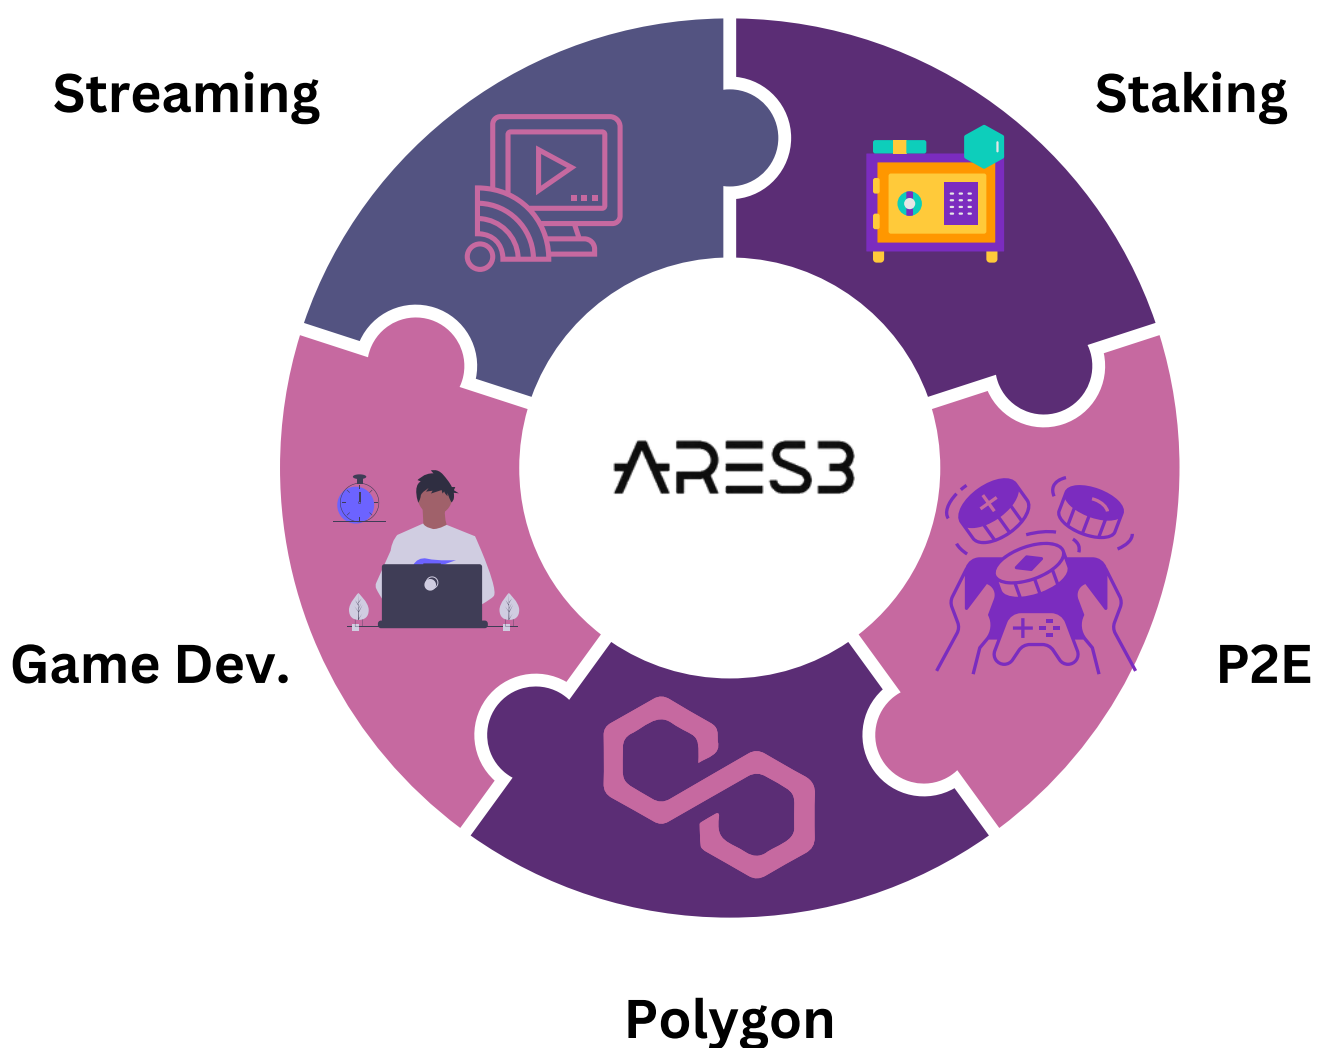

**03**

The platform's mission is to foster a community-driven approach that encourages innovation, creativity, and collaboration in the blockchain gaming industry, ultimately driving the industry forward.

**04**

ARES seeks to provide a unique and rewarding gaming experience for users while promoting transparency, fairness, and collaboration in the gaming industry.

# BUSINESS MODEL

# WHY CHOOSE ARES?

These are the following reasons why you should invest in our token:

01

## Transparency & Immutability

Every asset is recorded on the blockchain using the Ares3 ecosystem. An audit trail is provided to track where the token originated. It can assist with security and fraud prevention in exchange-related firms and verify the legitimacy of the exchanged assets.

02

## Lower Fees and Security

We are using the Polygon blockchain, which has less gas Fees linked with the ARES ecosystem than those related to debit, credit, wire transfers, and BACS payments.

03

## Community

ARES token is one of crypto's fastest-growing and most loved communities. We believe that only together we are strong. Community is everything, and the ARES token strives to include everyone from around the globe.

04

## Ease of use

**ARES is more valuable due to its ease of usage. All you need is a smartphone and access to the internet. By becoming a part of Ares3, investors may quickly receive rewards.**

05

## Blockchain compliant

Because Ares3 is a POLYGON blockchain-compliant rewarding platform that is designed to facilitate stakers, so every action performed is backed by blockchain and fraud-proof.

# GAMING

**01**

Ares3 provides users with a comprehensive gaming experience that not only allows them to play games but also earn rewards and interact with other players. With its P2E games and other features, Ares3 is a promising platform for gamers and crypto enthusiasts alike.

Play-to-Earn games are a type of game that allows players to earn real-world rewards, such as cryptocurrency or NFTs, by playing the game. These games have become increasingly popular in recent years, especially with the rise of blockchain technology, which enables secure and transparent ownership of digital assets.

**02**

Ares3 offers several P2E games, including PvP games, head-to-head matches, tournaments, direct matches, and disputes mode. These games allow players to compete against each other and earn rewards based on their performance.

In a PvP game, two players can compete against each other to see who comes out on top. The winner can then earn rewards in ARES Token. The head-to-head match allows players to compete against each other in a series of matches, with the player with the most wins earning the rewards.

**03**

Tournaments on Ares3 are a great way for players to earn rewards while competing against other players. These tournaments can be organized by anyone on the platform and can be open to all players or only selected ones. The winner of the tournament earn reward in form of ARES Token.

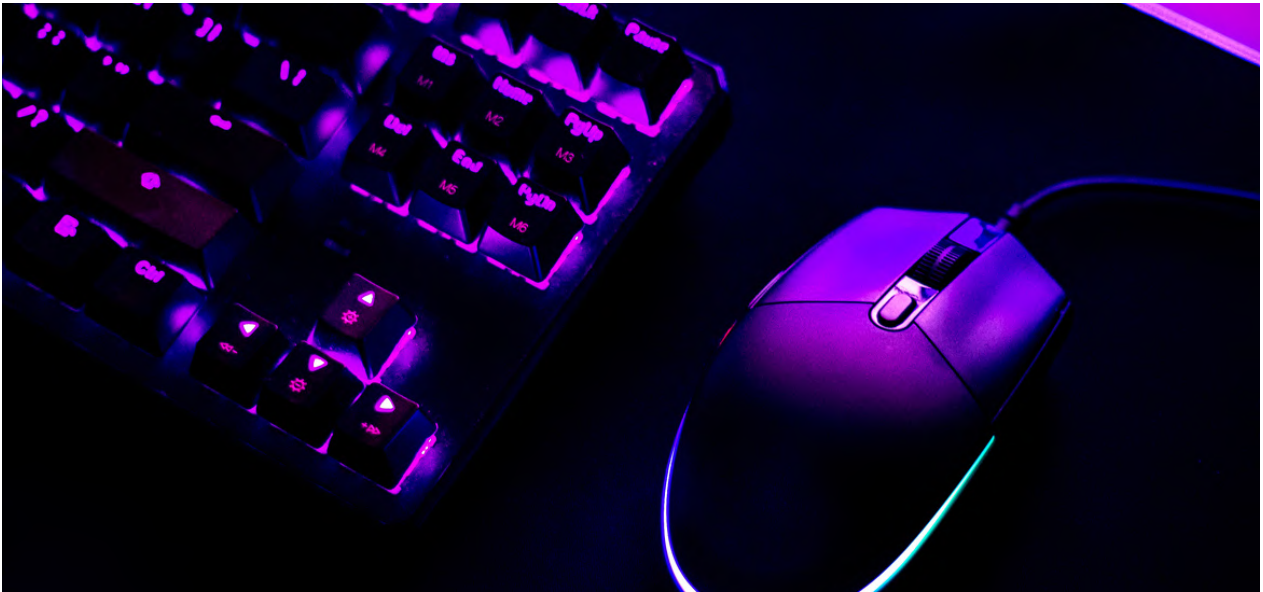

Direct matches allow players to challenge each other to a match, with the winner taking home the rewards. The disputes mode allows players to settle disputes with other players by challenging them to a match. The winner of the dispute match earns the rewards.

**04**

The P2E games on Ares3 are designed to be fair and transparent, with all transactions and gameplay recorded on the blockchain. This ensures that all players have an equal chance of winning and that the rewards are distributed fairly.

Ares3 also allows users to make their own games and organize tournaments on the platform. This feature provides an opportunity for game developers to showcase their talent and earn rewards for their work. Users can also view streaming videos of games and host AMA sessions with other players. ARES also allows users to view streaming videos of games and host AMA sessions. Furthermore, users can even make their own games and organize their own tournaments on this platform.

# ARES TOKEN

**By harnessing the power of Blockchain, this token is able to deliver a unique and innovative experience that sets it apart from other digital currencies. Whether you're a fan of Games, interested in earning passive income, or simply seeking a secure and reliable form of digital currency, the Blockchain-based ARES token has something for everyone.**

By providing a decentralized and secure form of digital currency, the Blockchain-based ARES token gives users the freedom to manage their finances in a way that suits them best. Whether you're looking to save, invest, or simply transact, this token offers a unique and innovative solution that empowers users to take control of their finances. Whether you're a seasoned crypto trader or new to the world of digital currency, this token offers something for everyone.

Staking is a key feature of the ARES platform that allows users to earn rewards by holding and locking their ARES tokens in a wallet. By staking their tokens, users contribute to the stability and security of the Ares3 ecosystem, which in turn enables the platform to offer a more reliable and robust gaming experience.

# STAKING

Staking can be an excellent way to generate passive income from your holdings, but it is important to understand the details of the our staking program and the risks involved before committing to it. It's also important to keep in mind that the value of the staking ARES Token can fluctuate and may not increase over time. We are providing an excellent opportunity to generate passive income.

Staking can provide a passive income stream for individuals who hold onto their coins and stake them on a regular basis.

Staking can be easier and more accessible compared to mining, as it requires less technical knowledge and resources.

Stakers can earn rewards for their participation in the validation process, which helps to maintain the security and integrity of the network.

Staking is less energy-intensive compared to mining, which can have a positive impact on the environment.

When you stake ARES Token, you are essentially locking them up for a certain period of time in order to support the network and validate transactions. In return, you earn a reward, typically in the form of more of the ARES Token. The amount of the reward is typically based on the amount of the staking token you hold, as well as the overall health and security of the network.

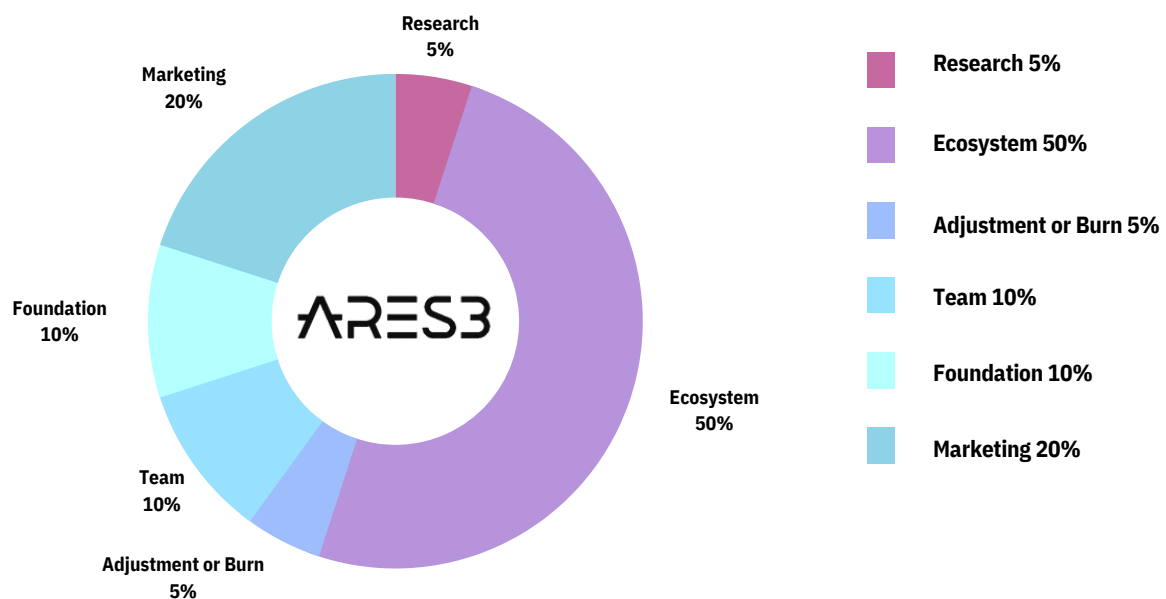

# TOKENOMICS

## Token Detail

NAME	<b>ARES Token</b>
SYMBOL	<b>ARES</b>
BLOCKCHAIN	<b>Polygon</b>
TOTAL SUPPLY	<b>300,000,000</b>

## Token Distribution

# Roadmap

## Phase 1 /23

- Website creation and publishing
- Whitepaper and Documentation Publication
- Deploy ARES Token to Smart Contract
- Hosted by AMA
- Pre-Launch Marketing
- CEX Listing

## Phase 2 /23

- Listing on Coinmarketcap
- Listing on Coingecko
- Early Access Applications
- Bug bounty program
- Test net Public(Mumbai)
  - Sign-up and profile creation
  - Message app
  - PvP game(Direct match)

## Phase 1 /24

- Test net Public(Mumbai)
  - Video streaming
  - Hosting AMA

## 4Q /22

- Conception and Construction
- Team Formation
- Create social media accounts

## Phase 3 /23

- Listing DEX
- Audit
- Content Enhancement
- Main net Public(Polygon)
- Test net Public(Mumbai)
  - PvP Game(Head-to-Head)
  - PvP game(Tournament)
  - ARES Staking

## Phase 2 /24 ~

- Test net Public(Mumbai)
  - Make Games
